

SITI NUR MAISARAH BINTI MAZLAN

BACHELOR OF COMPUTER SCIENCE (GRAPHIC & MULTIMEDIA TECHNOLOGY) (HONS)

011-1640-0484 | maisarahmzn@gmail.com | Wakaf Bharu, Kelantan
www.linkedin.com/in/siti-nur-maisarah-ba225123a | <https://github.com/maisiiyy>

DATE OF INTERNSHIP : 9 March 2026 - 21 August 2026

OBJECTIVES

Aspiring Computer Science student seeking an internship from March 2026 to August 2026 to apply and expand my skills in programming, web development, and multimedia technology. Equipped with hands-on experience in Unity and a strong foundation in software development, I aim to contribute effectively to team projects while gaining valuable industry exposure and enhancing my technical capabilities.

AREAS OF EXPERTISE

- **Programming Languages:** Python, C#, Java, PHP, JavaScript, SQL
- **Web Development:** React.js, HTML5, CSS3, Streamlit, Firebase
- **Game Development:** Unity, Autodesk Maya, WebGL
- **AI/ML:** MediaPipe, Scikit-Learn
- **Design Tools:** Figma, Adobe Photoshop, Canva
- **Tools:** GitHub, Anaconda Navigator

SKILLS

- Ability to work well with a team.
- Reliable with a strong work ethic.
- Adapted quickly to changing work situations such as flexible shifts and varied tasks.
- Able to manage multiple tasks efficiently by planning and organising work to meet deadlines.

EDUCATION HISTORY

UNIVERSITI MALAYSIA PAHANG AL-SULTAN ABDULLAH (UMPSA)

Bachelor of Computer Science (Graphics & Multimedia Technology) with Honors (2023 - Present)

Current CGPA : 3.43

UNIVERSITI MALAYSIA PAHANG AL-SULTAN ABDULLAH (UMPSA)

Diploma in Computer Science (2021-2023)

Graduated with CGPA 3.51

WORK EXPERIENCE

INTERNSHIP

MZ Gold Sdn.Bhd | March - August 2023

 - ICECINNO Programme By Faculty Of Computing, UMP
 - Program Graduate Employability and Industrial Training (GET-IT)
 - Cloud & AI: Powering The Next Generation of Innovation
-

PROJECT

Final Year Project | Degree [Completed]

Project Title: Using Image Processing in a 2D Educational Game to Enhance Personal Hygiene Learning for Young Learners

- Developing an educational game that incorporates image processing to teach young children essential hygiene habits such as handwashing, tooth brushing, and nail trimming through interactive and engaging gameplay.
- The project aims to improve children's understanding of personal hygiene by combining learning elements with fun, user-friendly game mechanics.

Unity Project [2023-Present]

- **3D Game** - AEGIS: Escape Protocol, with 3 interactive maps, AI enemies, mission objectives, and custom gameplay systems such as energy shields and combat mechanics.
- **2D Game** - Badang: Multiversal Destiny, an immersive action-adventure game that takes players on a thrilling journey through multiple universes.
- **VR Application** - Language Learning Adventure with Object Interaction, designed to enhance learning through immersive, hands-on experiences and is fully compatible with Oculus devices.

Final Year Project | Diploma [2022 - 2023]

- Developed a system called the "E-Blood Donation System" to assist people in registering as blood donors and ease the blood donation process.
-

ACADEMIC

Universiti Malaysia Pahang Al-Sultan Abdullah (UMPSA)
Bachelor's Degree

Dean's List 2 out of 4 semester

Diploma

Dean's List 4 out of 6 semester
